# Alt School

## Hey Ibegbulem,

We are so psyched that you are finally able to start this audacious journey with us. We know you've been waiting, and it's finally here. We'd like to congratulate you again for making it to this point.

In a short bit, you would be getting an invite to join our official School workspace on Slack, please accept it and set up your profile as soon as you can.

Also, expect an invite to the learning platform on Monday. So look out for that email (check your primary inbox, your spam and promotions folder).

Here's your Student ID: ALT/SOE/022/1668 Please do not lose this as it is very important for the duration of your program.

We've attached two important documents to give you more context on how this whole experience is going to be. Please take your time to look at the [Experience Guide](#) and the [Curriculum](#).

We are operating a school and as such, we expect a high level of adherence to AltSchool Africa's rules and regulations. Please carefully look through our [Code of Conduct](#) to stay informed.

We hope you have an amazing journey to becoming world-class Software Engineers.

Best Regards,  
Rachael Onoja  
Director of Learning
